Split Options

PDF version

The default folders that FTSplitDef locates the input and output files are specified in **Split Options**.

To configure the **Split options** of FTSplitDef:

- Choose **Splitting** from the **Options** menu.
- In the **Split options** dialog box, click the browse "..." button to select the default locations for input and output files.
 - **Look in** - the default location of raw data files.
 - **Split files into** - the default location of output files.
