Queue Properties

PDF version

Select the queue to change by highlighting it. Update the queue settings in the Properties Bar on the right side of the FTSpooler Window.

Applications

This option allows the use of customized third party application(s), including user-written programs.

More information on Application Setup

To add a customized application:

- Click the **Add** button to add a new application.
- Select the required application from the **Name** list.
- Enter **Recipient** for the application if required, otherwise key the hyphen (-) meaning no recipient.
- Click the **Add/Delete** button to edit the filters.

  More information on Defining Filters

- Click the **Apply** button to save the changes.
