Using the Archive

FTSpooler keeps all the job processing and delivery information in one job archivem and provides different views, i.e. **All, Delivered, Errors, Data, Replication, Formatting, Working and Logs**.

Archive shows three panels: **searching and filtering, main panel** and **detail panel**.

More information on Archive Database

More information on archive viewing for default (not Admin) users.

View Delivered Records

Select the **Delivered** button under **Archive** from the top navigation bar. In the **searching and filtering panel**, specify searching criteria to retrieve data records.

More information on Search and Filter Archive Records

In the **main panel**, FTSpooler shows the following for each job:

- **Status** - job status
- **Date / Time** - of submission
- **Queue** - the queue the data was processed in
- **To** - form(s) used in the processing the document

Between submission and delivery of the formatted document may be several steps such as input filtering, identification and routing an/or splitting, repagination and print formatting. Each step is shown in the **detail panel** located at the right side effectively showing the history of each job in most recent (top) to oldest (bottom) order.

You can select multiple records and save their documents. You can view a document in the appropriate viewer.

- **Process Name** - shows the name of the process used to modify or format the document. Some processes show additional information after a colon sign ":". For instance, the print-formatting process "formtrap" is followed with the name of the form; delivery engine "smtp", is followed with the document filter name.
- **Document Type** - the file type that is produced by the process. "txt" is raw data, "pcl" or "pclxl" or "ps" are formatted and print ready documents.

More information on Exporting Files

The screenshot shows the 'Archive' application interface. At the top, there are navigation tabs: Connection, Queues, Data folders, Archive, and Setup. Below these are sub-tabs: All, Delivered, Errors, Data, Replication, Formatting, Working, and Logs. The 'Delivered' sub-tab is active. On the left, the 'Searching and Filtering panel' is highlighted with a blue box. It contains fields for 'Queue:', 'To:', and 'Date range' (From: 16/08/2008, To: 15/09/2008). The main panel displays a table of records with columns: Date, Time, Queue, and To. The table contains 18 rows of data. On the right, there is a 'Detail panel' showing a table with columns: Process name and Document type. It lists several records, including 'User interface', 'Western', 'formtrap:statement', and 'smtp:PS2PDF'.
