Registry Update to FormTrap Spooler

▷ Registry Update

Related Batch Programs

These separately-run programs update system information.

Home Locator changes the folder for the Spooler-specific files (indicated by "fthome") and is normally changed to a separate drive as archive information becomes more extensive than originally planned.

Settings Merger updates system files in response to a file sent from FormTrap Support and Sales. This is normally number of printers upgrades, but may include the client name where the client advises a change in ownership.

Version Upgrade is run when updating to differently numbered version of FormTrap Spooler (eg v6 to v7).
